

BRIDGMANS
FARMDIRECT™

ON FARM SAFETY IS A PRIORITY

Following the tragic death of Todd Riggs last month, Bridgmans is urging all farmers to “Buckle up for Iceman”. This campaign, which started on Facebook, was created by a farmer from North Petherwin. The message is always wear a seat belt when driving a tractor. Let’s make a positive move to reduce the number of farm related fatalities; latest HSE figures reported 27 deaths in the 2016/17 year. Whilst deaths and injuries in most other industries have been declining, figures for the farming sector have remained fairly similar for the last few years. The HSE has suggested the reasons for this include more farmers having to work alone; more powerful machinery and an ageing workforce. So please take care and take the HSE pledge:

“MAKE THE PROMISE – COME HOME SAFE!”

Brenderup

TRAILERS AT BRIDGMANS KILKHAMPTON

We have recently been appointed as a new stockist of Brenderup Trailers. Here is a selection of trailers available at our Kilkhampton branch.

Series 5000

Durable trailers with rugged design for professional users and heavier loads.

All sides fold down for easy loading, such as by forklift. The folding tie eyes on the loading platform make it easier to secure the load.

Series 2000

Easy to load and durable trailers with good cargo capacity, high-side panels and low load height. The dimensions are suitable for standard sheet sizes. These are highly flexible thanks to Brenderup's wide range of accessories.

For more information contact Kilkhampton Machinery Dept on 01288 321229

Series 4000

High-sided trailers for contractors with wheels mounted under the bed for optimal bed area. All sides fold down so these trailers function very well as workbenches, market wagons or for loading.

Equipped with integrated, internal lashing eyes.
